# Student Mobility for Studies

International Programs Office

TED UNIVERSITY

International Programs Office

## Student Mobility for Studies

This programme offers students the chance to study in one of the partner universities in **Programme Countries** (Member States of the European Union, North Macedonia, Serbia, Iceland, Liechtenstein, Norway) for a semester or an entire academic year. Your study period must last **at least 2 months (or 1 academic term)** and cannot exceed 12 months. **It is not possible to do more than a 12-month mobility period (either study or traineeship) through Erasmus+ for each cycle of studies — Bachelor's, Master's and PhD.**

### Fundamental Conditions

→ To be eligible for Erasmus+, you must be a registered student enrolled in studies leading to a recognized degree. Your department and the receiving institution must have an Inter-Institutional Agreement in place for you to study there with Erasmus+.

→ Your study period abroad must be relevant to your degree-related learning and personal development needs and must be part of the study program you are following at TEDU.

→ You must have a course load of **30 ECTS** credits for the semester you plan to participate in Erasmus+ studies.

Students who participate in the programme will receive full recognition for the credits they successfully earn at the

receiving institution. **However, failed courses must be retaken at TEDU.**

As an Erasmus+ student, you are exempt from tuition, registration, examinations, and charges for access to laboratories or libraries at the **receiving institution** (You must pay your tuition fees to TEDU). Small fees for insurance or student union membership may still apply.

## Eligibility Criteria

- → Students must be registered at TEDU as full-degree undergraduate or graduate programs at the time of application.
- → Students must have completed **at least one semester** in their program[1]
- → Students registered in Common Core Programs[2] must have completed their **first year**. In other words, these students can apply to the programme in their **sophomore year**.
- → English Language School students are not eligible to apply.
- → The required minimum CGPA is **2.50** for undergraduate and **2.75** for graduate students.
- → Students must obtain a language score from one of the following tests: **ELS Erasmus+ English Language Exam, TOEFL iBT, IELTS Academic, PTE Academic, or Cambridge Assessment English**.
- → Students who have participated in an Erasmus+ exchange are eligible to do so for **a maximum of 12 months per study cycle** (Bachelor's, Master's or Doctorate), which includes the time frame applied for a current application. For example, if a student has already completed an

Erasmus+ exchange for 5 months, their next exchange period cannot exceed 7 months in the same study cycle.

**Specific Conditions for Freshmen, Common Core and Double Major Students**

→ Considering the limited quotas, the first-year students who apply to a program within the same department as sophomore or junior students will be placed in such a way that they do not exceed **50% of the total quota of the department**, even if their total points are higher than those of other sophomore or junior students. However, suppose there are not enough applications from sophomores or juniors to fill the quotas. In **that case, the rule mentioned above will not be applied to the first-year students in the remaining quotas after placing the existing sophomores and juniors**. For departments with single quotas, priority will be given to **sophomore or junior students with the highest score**, even if there are first-year students with a higher total score, ***per the resolution reached during the Internationalization Committee Meeting conducted on June 10, 2020.***

→ According to the regulations of the Erasmus+ Programme, students can only participate in study mobility if there is an existing bilateral agreement in place. Since the placement of students is based on the bilateral agreements between the departments, it is not possible to allocate placements for Common Core Program students who are in their first year during the application period, **as their majors have not yet been finalized**. Therefore, Common Core Program students can only apply for the Erasmus+ Programme in their **sophomore year, *per the resolution reached during***

***the Internationalization Committee Meeting conducted on April 7, 2022.***

→ Students pursuing a double major can only apply for the mobility from **one major** during the same application period.

---

***1 Arts and Sciences, Architecture and Design, Education, Graduate School***

***2 Economics and Administrative Sciences, Engineering***

## Application Requirements

→ Having completed **at least one semester** in the registered program[1] in the application period and for Common Core Programs[2], having completed **the first year** of the program,

→ Having obtained a CGPA of a minimum **2.50** for undergraduate, **2.75** for graduate and postgraduate students,

→ Taking the **ELS Erasmus+ English Language Exam** or holding a valid **TOEFL iBT, IELTS Academic, PTE Academic, or Cambridge Assessment English Score**.

→ A course load of **30 ECTS** credits for the planned mobility period

---

***1 Arts and Sciences, Architecture and Design, Education, Graduate School***

***2 Economics and Administrative Sciences, Engineering***

## Evaluation Criteria & Selection Procedures

The selection of students for the Erasmus+ Programme is based on a specific set of criteria. Students must meet the minimum requirements and evaluation criteria announced by the **Turkish National Agency.** The evaluation process considers the students' average academic success, language scores, and their previous participation in the Erasmus+ Programme. For each previous activity that benefited from within the same study cycle, **a 10-point deduction** is applied, irrespective of whether it was a study or traineeship component. The total scoring is calculated as below:

→ **50% of CGPA + 50% of Language Score + Additional Scoring (If applicable) = Total Score**

Students are ranked based on their **total scores within their departments**, from the highest to the lowest. The grantee participant candidates are selected according to the maximum quotas determined by the budget criteria. Participants are also selected based on their choice of partner university.

Students who apply for study and traineeship mobility during the **same application period** can choose which activity will incur the **"-10 points"** deduction. **The student must submit an email petition during the application to specify the preferred activity for the score reduction.**

Below is the detailed table for the evaluation criteria and weighted scoring:

| | |
|---|---|
| | Değerlendirme Ölçütleri & Ağırlıklı Puanlar – Öğrenci Öğrenim Hareketliliği |

| | |
|---|---|
| | Evaluation Criteria & Weighted Scoring – Student Mobility for Studies |

## Erasmus+ Grant & Travel Support

Students eligible for Erasmus+ studies may receive financial support to help cover some of their expenses while studying abroad. After the evaluations, **depending on the number of funded places available per department,** all qualified students on the main list will be financed by the Erasmus+ grant for their study period.

These grants are **not** intended to cover all expenses but are only contributory. Countries are divided into three groups based on their living standards, and monthly study grants have been determined for each country group.

| Country Groups | Host Countries | Monthly Grant (EUR) |
|---|---|---|
| **1st & 2nd** | Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Latvia, Liechtenstein, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Slovenia, Spain, Sweden | 600 |
| **3rd** | Bulgaria, Croatia, North Macedonia, Lithuania, Hungary, Poland, Romania, Serbia | 450 |

**Travel Support & Green Travel**

Starting with the 2024 project year, Erasmus+ will provide student mobility with travel support* as a **one-time** grant. To contribute to students' travel expenses, the distance between the starting point and the location of the mobility will be determined using the **Distance Calculator** provided by the European Commission, and the travel grant will be calculated accordingly.

| Travel Distance (KM) | Travel Support (EUR) | Green Travel (EUR) |
|---|---|---|
| **500 - 1999** | 309 | 417 |
| **2000 - 2999** | 395 | 535 |
| **3000 - 3999** | 580 | 785 |

Only low-emission travel qualifies for a **Green Travel Grant**. Most of the travel must be completed using low-emission means of transport, such as trains, buses, or carpooling with at least two people.

***This applies only to participants selected for Erasmus+ projects started in 2024.***

**Inclusion Support**

Erasmus+ Programme encourages the participation of people with special needs in the programme under ***Inclusion Support*.** A person with special needs is a potential participant whose personal physical condition, mental state or health condition does not allow them to participate in the project/mobility activity without additional financial support.

TED University is committed to ensuring the observance, implementation, and sustainability of the principles of equality and inclusion in Erasmus+ Programme areas to meet the commitments made within the scope of the **2021-2027 Erasmus Charter for Higher Education (ECHE).**

Additional support may be provided to participants with fewer opportunities besides the grants they receive. For the funding in question to be awarded, a participant with

fewer opportunities is defined as an individual with limited economic and social opportunities who fits into the following subcategories:

- → Those who are subject to Law No. 2828 (those who have a protection, care, or shelter decision issued by the Ministry of Family and Social Services by Law No. 2828)
- → Students for whom protection, care, or shelter decisions have been made within the scope of the Child Protection Law No. 5395
- → Those who have no other parental income and receive an orphan's pension
- → Children of martyrs or veterans
- → Those who receive a dependency pension for themselves or their family (a document proving that the student, their parents, or guardian received financial support from municipalities, public institutions and organisations; Ministries, Social Assistance and Solidarity Foundations, General Directorate of Foundations, Red Crescent, AFAD, etc., is sufficient while applying for Erasmus+).
- → Persons with disabilities[1]
- → Students whose parents or guardians receive special needs pension within the scope of Law No. 2022 dated 01.07.1976 on Pension to Dependent and Orphaned Turkish Citizens Over the Age of 65 and Turkish Citizens with Special Needs[2]
- → Those who themselves or their first-degree relatives receive disaster victim assistance from AFAD

The scholarships provided by the General Directorate of Credit and Dormitories Agency, as well as similar scholarships, grants, aids, and success scholarships, are

not accepted as part of the financial aid program mentioned.

Additional Grant Support may be available to students who meet the above criteria upon request, provided they have appropriately documented their situation. **All documents related to Additional Grant Support requests must be uploaded to the system during the application.**

| Type of Mobility | Monthly Additional Grant (EUR) |
|---|---|
| Student mobility between 2-12 months | 250 |

---

**Erasmus+ Grant Simulator**

This tool will allow you to simulate your Erasmus+ Grant. You will receive **an estimate based on your mobility type, duration and location.** The simulation will give you an estimate based on general European-wide rules based on the Erasmus+ Programme Guide.

**https://erasmusgeneration.org/grant-simulator**

---

***1 Persons with disabilities, with a disability rate of at least 70%, documented by the Disability Health Board report in the "Regulation on Disability Assessment for Adults" published in Official Gazette No. 30692 dated February 20, 2019.***

***2 https://www.mevzuat.gov.tr/MevzuatMetin/1.5.2022.pdf***

**These funded places are supported by the Erasmus+ Programme, which is co-funded by the European Union. This means the funding is separate from the University's regular budget. The number of funded places available for each department can vary annually. This depends on the amount of the Erasmus+ grant allocated to our mobility projects. Sometimes, we may be able to offer additional funded places. This usually happens if the Turkish National Agency provides our University with extra funding during the project period.**

| | |
|---|---|
| | Funded Places for 2024/25 Academic Year Erasmus+ Studies |
| | Funded Places for 2025/26 Academic Year Erasmus+ Studies |

## Call for Applications

- → **2024/25 Academic Year Erasmus+ Student Mobility for Studies — Closed!**
- → **2025/26 Academic Year Erasmus+ Student Mobility for Studies — Closed!**

## Why You Should Consult Your Departmental Coordinator Before Applying?

Before applying for Erasmus+ studies, students must consult their **Erasmus+ Departmental Coordinators** and obtain approval for their chosen host universities. This step is crucial to ensure that the host university offers suitable courses for the semester, meets language requirements, and fulfils the ECTS criteria necessary for academic recognition.

When selecting a host university, confirm **course availability, language requirements, and ECTS compliance** with your Erasmus+ Departmental Coordinator and choose the option that **best suits your academic progress**. Failing to consult your coordinator may result in the **cancellation** of your mobility due to course discrepancies or unmet ECTS requirements.

## Application Process & Required Documents

All applications must be submitted through **TURNAPortal**, accessible via e-Devlet. Applicants must log in to TURNAPortal using their e-Devlet credentials, access the TED University application page, and complete their application by the deadline stated in the announcements. Applications will be considered **incomplete** unless the **'Submit Application'** button is clicked.

Applicants are strongly advised to carefully review the Application Guide to ensure the proper and complete submission of their applications.

The following information and documents are required during the application process:

**1) Language Proficiency Certificate**

The following language exams and certificates are accepted for TED University Erasmus+ Programme applications:

→ ELS Erasmus+ English Proficiency Exam administered by the TED University English Language School

→ TOEFL iBT, IELTS Academic, PTE Academic, Cambridge English Assessment

Applicants must upload their official score reports for the above-mentioned exams in PDF format to TURNAPortal. The accuracy of uploaded documents is the sole responsibility of the applicant.

**Important Note:** ELS Erasmus+ English Proficiency Exam results will be directly imported into the application system. Therefore, students do not need to upload these results separately. Applicants who believe there is an error in their displayed exam score, or those who wish to use a different valid exam score, must contact our office.

**Click here** for detailed information regarding acceptable language certificates.

**2) Academic Records**

Applicants must verify their current cumulative GPA through the e-Devlet system. The accuracy and up-to-dateness of this information is the sole responsibility of the applicant. Applicants who identify any discrepancies in their records must contact the Registrar's Office

**3) Supplementary Documents**

Any documents that may influence the weighted score considered in the application evaluation and/or documents supporting requests for additional grant support must be uploaded to TURNAPortal.

## Application Guide for Erasmus+ Studies

| | |
|---|---|
| | Application Guide for Erasmus+ Studies |

You have been selected for Erasmus+ Studies. Congratulations! You may be wondering what's next.

Student Mobility for Studies consists of three phases: before, during, and after the mobility. Each phase has its own set of documents and requirements:

## Before the Mobility

After the results are announced, **the International Programs Office will directly nominate students on the main list to the host universities**. This official process is known as **nomination**. The nomination deadlines for each institution vary, but it's generally done in **April-May** for the **Fall Semester** and **September-November** for the **Spring Semester**. Students on the reserve list who want to participate in the mobility programme without a grant **must send a petition for zero-grant participation** via e-mail within the specified deadlines in the application announcement. **If students on the reserve list fail to**

**submit a petition for zero-grant participation, they won't be nominated.**

After the nomination process, the host university will e-mail students with instructions on how to complete their application. **Students must individually submit their applications within the deadlines set by the host university.** It's crucial to carefully follow the instructions on the host university's website or in e-mail notifications and ensure all necessary documents are submitted or uploaded before the deadlines. Once the application is submitted, the host university will review the documents and assess the application. After the review, students will receive an **acceptance letter** from the host university.

**Following the nomination procedure, the students are responsible for applying to the host university, securing admission, completing the required official processes and documents, preparing Learning Agreements without any course discrepancies, and especially visa applications. Please note that nomination itself doesn't guarantee automatic admission into a program!**

Students may be asked to provide various documents when applying to host universities. These may include a **student certificate, transcript, language proficiency certificate, travel health insurance, passport or ID, and Learning Agreement.**

Students can obtain some of the necessary documents from the following university units:

→ **Student Certificate and Transcript** — These can be obtained from **Student Affairs** or via the **e-Government.**

→ **Language Proficiency Certificate** — Students can request a proficiency certificate from the **English Language School** or submit a valid international language certificate, such as the **TOEFL** or **IELTS**.

Students who complete the application process and receive admission from the host university must **e-mail** the required documents to our office. We replace the paper-based workflow with a digital one within the framework of the **Erasmus Without Paper (EWP)** initiative. Supporting digital procedures is part of our commitment to the Erasmus Charter for Higher Education (ECHE). **Therefore, students are highly encouraged to prepare their documents on a digital platform whenever possible and submit them to erasmus@tedu.edu.tr**

Acceptance Letter ↓

Passport ↑

Students under 25 planning to study abroad may be eligible for an exemption from passport or international departure fees. To qualify for the exemption, students must apply for a passport through the **Civil Registry Office** and submit their **student certificates** to the relevant authority. For students who already have a passport, it is recommended that you have a travel passport valid for **at least six months** from the travel date.

Those with a **Special Passport**, also known as a **Green Passport**, are still **subject to a visa**

since an academic semester usually lasts **more than 90 days**. **We advise all students to get information from relevant consulates or embassies, regardless of their passport type.**

The **Service Passport**, also known as the **Grey Passport**, is exclusively issued for **official and/or government-related purposes. We urge our students not to persist in requesting this type of passport.**

Euro Account Information ↓

Grant Agreement ↓

Useful Information on Visa, Accommodation and More ↓

During the Mobility ↑

Upon receiving visa approval and signing the grant agreement, students should begin their study period as specified in their acceptance letters. **Students need to adhere to the conditions outlined in the grant agreement.** When accepted as exchange students at a host university, they are considered students of the host university throughout their enrollment. They have the same rights and privileges as other host university students. They are also subject to the academic and administrative regulations of the host university.

**Students are expected to comply with the rules and regulations of the host university and the country, including laws and health and safety regulations. Students must remember that they represent our university at the host university and in the country.**

The rights and responsibilities of students are outlined in the **Erasmus+ Student Charter**, which can be accessed **here.** This charter and other annexes are included in the grant agreement.

As soon as students start their study period at the host university, they are required to submit the aforementioned documents and follow the instructions provided in the helpful information below:

## Certificate of Arrival

Upon arrival, students must submit the **Certificate of Arrival** to our office. **The International Office of the host university** must sign the document. Students should keep

the original copy until the end of their mobility period.

Students may request the host university to complete and sign TEDU's template or use their template.

| | |
|---|---|
| | Certificate of Arrival |

## Changes to the Learning Agreement

Students may request changes to their Learning Agreement within **five weeks after the start of the semester at the host university** for various reasons, such as courses no longer being offered or add-drop situations. These changes need to be approved within **two weeks** of the request. The Learning Agreement must be **"Signed by both coordinators"** to make changes. Therefore, students must ensure they obtain all necessary signatures before their mobility. A video guide on how to change courses is available **here** .

It is mandatory to take all the courses specified in the OLA, and students are expected to pass these courses successfully. In the case of failure due to **absenteeism**, a deduction will be made in proportion to the failure, **at least 5% of the actual mobility days**. This condition is stated in the grant agreement.

## Course Change Form

After all parties approve the changes made in the OLA, students must record the changes they have made in the **Course Change Form within five weeks at the latest**, submit it to the relevant **Faculty Secretary** and ensure that a new **Faculty Board Decision** is taken.

Changes made by students who do not complete this process will not be considered **valid**, and the courses they change will be recorded as **failing** in their transcripts.

**Students who do not change their Learning Agreements must submit only the Certificate of Arrival, among the other documents mentioned.**

| | |
|---|---|
| | Ders Değiştirme Formu (TR) |
| | Course Change Form (EN) |

## Useful Information

**Residence Permit**

Students should contact the **International Office** of the host university to obtain information about procedures such as

**residence permits** that the host country may require and to complete the necessary steps.

---

**Social Life**

To help students adapt to life abroad, it is recommended that they take part in the **Orientation Weeks** offered by the host university and participate in the social and cultural activities of the country they are in. The Orientation Weeks typically take place in the **first week of the semester** and are outlined in the acceptance letter.

Students can join the host university's **ESN (Erasmus Student Network)** community to stay informed about social activities. Besides, you can get an **ESNcard**, which allows you to access all the services and discounts offered by ESN and their partners.

**Besides focusing on their academic endeavours, students should also aim to have a fulfilling social life abroad to focus on personal development and gain valuable experiences.**

---

**Health and Safety**

**Adhering to the host country's rules is crucial for students, as this ensures their safety and helps them avoid legal issues. Students must also demonstrate respect and sensitivity toward cultural, social, and political issues.** In case of any **safety or health concerns**, the **host university** should

be the **first point of contact** for assistance. Students must inform the host university about **emergency contacts.**

In case of theft or loss, **copies of mobility documents, passports, and residence permits** should be kept in a cloud service (iCloud, Google Drive, etc.). If a passport is stolen or lost, students must contact the **Turkish Consulate** in the host country **as soon as possible.**

---

**Extension of Study Period**

The study period extension is subject to the **host university's and your department's approval at TEDU**. Students must first get **approval from the host university** and then contact their **Departmental Coordinators at TEDU.**

An extension is only possible from the **Fall to the following Spring term. A total mobility period cannot exceed 12 months.** Students must submit their extension requests **a month before the end of the mobility period** and submit their documents for the extended study period.

It's important to note that the financial support provided to enable more students to benefit from the grant is limited to **one semester.** Therefore, providing financial support for an extended period depends on the availability of grant opportunities during the project period. However, students are free to extend their study period **without a grant.**

## After the Mobility

Students must submit the following documents and complete the procedures within **15 days** to receive the remaining 20% of their grants:

### Certificate of Attendance

It is a document that indicates your **whole study period** at the host university. **The host university prepares and signs the document.** Students must submit a copy of the document by email.

Some institutions may request a certificate regarding your study abroad for postgraduate and job applications abroad. For this reason, **we strongly recommend that our students keep the original document** for their future endeavours.

| | |
|---|---|
| | Certificate of Attendance.docx |

### Transcript of Records

A transcript of records is an official document showing the ECTS credits the student has successfully completed at the host university.

**The host university must seal and sign this document.** One copy of the document should be submitted to our office and another to the **Faculty Secretary** for **course transfers. Students should keep the original transcripts.**

The time needed for transcripts may vary depending on the academic calendar of the universities. **Therefore, if students have not received their transcripts by the end of the mobility period, they must submit other documents until they do.** Host universities will issue a transcript of records **no later than five weeks** after the assessment period.

## Course Substitution Form

Course Substitution Form is a document that ensures the courses successfully completed at the host university are **transferred** to the **TEDU program**.

Students must complete this document under the supervision of their **Departmental Coordinators** and submit it to their **Faculty Secretary** for the Faculty Board's Decision regarding the course transfers. **Please be aware that Our office has no authority over grade conversions. Therefore, you should consult your Department Coordinator.**

**It is solely your responsibility to complete this form and ensure the proper recognition of your courses, to avoid any complications for your academic progress. The course recognition process must be completed on time to avoid problems with course registration in the following semester.** Students should follow up with their faculty regarding the process.

| | |
|---|---|
| | Ders Saydirma Formu (TR).docx |
| | Course Substitution Form (EN).docx |

## EU Survey (Participant Report)

The EU Survey is a tool mobility project participants use to complete a report on their experience. Once your mobility ends, you will receive a link to the EU Survey. **It's important to submit your documents promptly so our office can process your information and you receive an invitation.**

This survey on your mobility experience will provide the EU's Erasmus+ Programme with valuable information which will benefit both future participants and contribute to the continued improvement of the programme.

The students shall complete and submit the participant report on their mobility experience

via EUSurvey **within 30 calendar days** of receiving the invitation to complete it. **Students who fail to complete and submit the online participant report must partially reimburse the financial support received.**

## The Remaining 20% of the Grant

Students must be aware that **meeting the requirements outlined in the grant agreement and submitting the necessary documents** is a crucial responsibility. This is **necessary** to receive the remaining 20% of the grant. If the requirements are **not fulfilled** and documents are **missing**, the remaining grant payment will not be **issued, and all or part of the 80% grant payment given to the student may have to be repaid.**

Grants are awarded to students based on the **duration of their study abroad (the time they spend physically present at the host university).** If the mobility is completed in less time than initially planned, the final grant amount will be adjusted according to **the actual duration**. The dates stated in the **Certificate of Attendance** determine the actual study period. Additional documents, such as passports and travel records, may be reviewed, if necessary, to confirm the exact duration of the mobility.

---

**Deduction of Grants**

→ **Deduction Due to Failure:** In cases of failure, a deduction proportional to the level of failure, but no less than 5% of the total eligible grant amount for the actual duration of the activity, will be applied.

→ **Deduction for Not Completing the Participant Survey:** Except for technical issues, students who fail to complete the participant survey will have 20% of the total eligible grant amount for the actual duration of the activity deducted.

→ **Full Repayment of the Grant:** If the required documents proving participation in the mobility (such as a Certificate of Attendance or a Transcript of Records (ToR) issued after the mobility) are not submitted, the mobility will be deemed invalid, and no grant will be awarded to the student. Any grant paid in advance will be reclaimed.

## Useful Information

**Interruption of Mobility**

If mobility is interrupted due to **force majeure**[1], students can still receive a grant for the **completed period, as long as the force majeure is documented.** Semester breaks and official holidays do not count as interruptions. If students return before completing the minimum period of **2 months**, except for force majeure, **the mobility will be**

**considered invalid, and the student will be required to reimburse the grant.**

**Turkish National Agency remains the authority to decide whether a situation is considered force majeure.**

---

**Deduction of Grants**

→ **Deduction Due to Failure:** In cases of failure, a deduction proportional to the level of failure, but no less than 5% of the total eligible grant amount for the actual duration of the activity, will be applied.

→ **Deduction for Not Completing the Participant Survey:** Except for technical issues, students who fail to complete the participant survey will have 20% of the total eligible grant amount for the actual duration of the activity deducted.

→ **Full Repayment of the Grant:** If the required documents proving participation in the mobility (such as a Certificate of Attendance or a Transcript of Records (ToR) issued after the mobility) are not submitted, the mobility will be deemed invalid, and no grant will be awarded to the student. Any grant paid in advance will be reclaimed.

---

***1 "Force majeure" means any event preventing either party from fulfilling contractual obligations. It means any exceptional situation or event beyond the control of the parties that is not caused by the error or negligence of the parties, their subcontractors, affiliates, or third parties involved in the application. It***

***is inevitable and unpredictable despite all the care and attention taken. Failure to provide a service, defects in equipment or materials, or failure to make them available on time cannot be invoked as force majeure unless a force majeure event directly causes it and is also caused by a labour dispute, strike, or financial hardship.***
